## Beskrivelse af

FIRST CLASS LIVING - YEAR-ROUND USE - MANY UPGRADES

The Adagio 48 LBC is a truly beautiful trawler where you quickly realise that comfort and a good sense of space are a priority. The exterior design is classic and timeless, but with a little edge that makes you sit up and take notice.

The trawler is safe for its crew with its high ring deck and ample space on the foredeck and side decks. On the aft deck, you can enjoy a drink or a nice meal - although if you're more into getting up high, the boat has a sumptuous large flybridge. There's a helm, sofa area, sink and a whole 'dance floor' to frolic on. The targa bar can be lowered in a snap, which is very useful when travelling down European rivers.

Fra det store agterdæk er der adgang til salonen. Indrettet med sofagrube i BB-side og skænk/opbevaring/lille sofa og elpanel i STB-side. Midskibs et fantastisk pantry med ny ovn/komfur og nyt stort ISOTERM køle/fryseskab med separat kompressor til køl og frys. Fra pantry adgang til styrehus via bred trappe. I styrehuset gode sofa og pilotstol krydret med et fantastisk udsyn fra de store vinduer.

Fra det store agterdæk er der adgang til salonen. Indrettet med sofagrube i BB-side og skænk/opbevaring/lille sofa og elpanel i STB-side. Midskibs et fantastisk pantry med ny ovn/komfur og nyt stort ISOTERM køle/fryseskab med separat kompressor til køl og frys. Fra pantry adgang til styrehus via bred trappe. I styrehuset gode sofa og pilotstol krydret med et fantastisk udsyn fra de store vinduer.

From the large aft deck there is access to the saloon. Furnished with a sofa group on the BB side and a sideboard/storage/small sofa and electrical panel on the STB side. Midship a fantastic pantry with new oven/stove and new large ISOTERM fridge/freezer with separate compressor for fridge and freezer. From the pantry access to the wheelhouse via wide stairs. In the wheelhouse you'll find a comfortable sofa and pilot's chair with a fantastic view from the large windows.

From the pantry you also have access to the cabin area of the boat. There are 3 nice cabins; a guest cabin with a double bed, a guest cabin with bunk beds and last but not least the Owners Cabin, which can make a bedroom in a normal house seem small. Plenty of closet space everywhere and two bathrooms (one for the owners cabin, the other for the other two cabins)

In the engine room, everything is in perfect order. The trawler is powered by 2 solid Volvo Penta D6-370 engines. The nozzles have just been checked, with the current owner having changed them all on one engine. In 2022, the owner invested in the Yacht Controller, which makes harbour manoeuvres a breeze.

On the equipment list of this trawler you will find, among other things:

Bow and stern thruster

Diesel generator

Waterborne WEBASTO boiler

Large navigation package

Fusion system (bluetooth)

Yacht Controller

See the complete equipment list under 'Specification' on the page below.

If you're in the market for a trawler that doesn't look like everything else, and you think there's too much woodwork/maintenance on a Grand Banks, then you should look towards this Adagio 48 LBC

The trawler is ready for inspection in Nykøbing Sjælland Harbour. Contact boat broker Tobias Schmidt Larsen from BOATERY on tel. +45 7730 0677 to arrange a viewing.
